METALURE® Prismatic Black 031080 MA 是一款高端真空镀铝颜料，具有极具辨识度的多维视觉效果。该产品通过特殊的 VMP 氧化与压纹工艺生产，实现了高镜面反射、深黑基调以及彩虹效果的三重组合。

METALURE® Prismatic Black 031080 MA 适用于溶剂型体系，由爱卡珠海生产。

METALURE® Prismatic Black 031080 MA 的主要优点包括：

- 采用特殊 VMP 氧化及压纹技术生产
- 粒径约为 10 µm，用于实现平滑且高辨识度的视觉效果
- 溶剂体系为 PMA（丙二醇甲醚乙酸酯），具有良好的体系相容性
- 独特三合一视觉效果：高镜面反射 + 深黑基调 + 彩虹效果
- 细腻的闪烁细节与平滑外观，在增强层次感的同时避免过强反射
- 奢华但克制的质感，适用于高端设计风格
- 为汽车原厂漆、家电及 3C 涂料提供创新的色彩设计可能

METALURE® Prismatic Black 031080 MA is a premium Vacuum Metallized Pigment offering exceptionally unique multidimensional appearance. Developed through a special VMP oxidization and embossing process, it combines high chrome reflection, a deep black tone, and a distinct rainbow prismatic effect that becomes visible under light.

METALURE® Prismatic Black 031080 MA is suitable for solvent borne systems, supplied from ECKART Zhuhai.

The key advantages of METALURE® Prismatic Black 031080 MA are:

- Produced using special VMP oxidization and embossing technology
- Particle size ~10 µm, optimized for smooth, high-definition styling
- Solvent system: PMA (Methoxy Propyl Acetate) for excellent compatibility
- Unique 3-in-1 visual effect: high chrome reflection + deep black tone + rainbow prismatic highlight
- Fine sparkling detail and smooth appearance, adding depth without excessive flash
- Luxury yet understated visual character suitable for premium design concepts
- Innovative color-design potential for automotive OEM, home appliances, and 3C coatings
